Take a look at other guides like the best team for Blaze Wizard or Wind Archer or even Dark Knight. Here is a brief guide on the best equipment (better in slot) and the set you should use for your Lord of the Night. This belt along with the Immortal Pharaoh Ring (Unique) gives a bonus set of about 200 PHY and MAG attack. The Sirius Cape adds Critical Rate while the Glorious Cape adds evadir. To outfit, gloves, shoes and other armor pieces, you have four different types as well. Muspell gloves add a lot of precision (more than 300) while eclectic gloves add 50 critical attack. You can only get it from Zukum (Duro), so you don't have to use the Normal mode only for the Epic Zukum helmet. The best element in Normal mode is probably the facial accessory (Unique). Gun for Lord of the Night, you have four different types of claws to choose, that is, Briser, Halphas, Utgard and Jaijin. I don't mind sacrificing some critical attacks for the accuracy that can actually give you a greater DPS overall. The first two for me are probably Jaijin and Halphas. Similarly, if you go after Evade's construction, use the Halphas. Belt I don't think there's a dispute over the belts. It all depends on your construction, that is, if you go after a major attack or an evasion. The best suit for the Lord of the Night is the Eclectic that adds Critical Attack or the Halphas that adds Evade. Jaijin's claw adds Crit DMG which is about 25% if you use only. If you prefer a major attack, go with the Eclectic Moonsteen. Let us hope that this guide on the team of the Nocturne Lord in MapleStory M will be useful. Shoes As for shoes, you can use the Moonsteen Eclectic that gives critical attack as well. In addition, the Zukum Helmet will ruin your game bonus anyway. It's great for Mu Lung Dojo too. Explore Wiki: Night Lords are very popular in MapleStory M mainly due to their high DPS. Gloves As for gloves, there are two opinions about this. If you max two of these skills, you should get a 20-second window of invincibility of 30 seconds. 6. Many of these game bonuses add Magic Defense and Physical Defense that just a long time ago. 7. Evade works well now, but I'm not sure if it's so useful much later. Therefore, the BIS for weapon now is the Zukum Helmet.
